## SUMMER SPEECH BUDDIES!

**A virtual summer camp led by a certified Speech-Language Pathologist.  
Your child will connect with kids their age and work on speech/language skills together!**

- Personalized small groups (3-4 children) with weekly “fun packets” and interactive games that make working on speech/language a blast!
- SLP will create relevant goals and curriculum tailored to your child’s interests and lead group participation.
- Our 6-8 week camps start soon! Groups are held once a week for 1 hour durations.
- Want to reserve additional SLP time? Sign up for our 1:1 speech therapy sessions (in home or through teletherapy).

Services provided: In home (1:1 therapy), and teletherapy (group or 1:1). Our SLP’s have experience working with both children and adults to support treatment programs for fluency (stuttering), articulation, phonological, auditory processing, social skills, and AAC.

**Call for your SLP phone consultation today!**
